Genri REZNIK,
Vice President of the Federal Chamber of
Lawyers of the Russian Federation

This Directory is in fact an innovative product, part of an entire networking system for lawyers. This system revolves around development of relations between Russian and foreign lawyers on multiple platforms, and is supported by the dissemination of professional profiles of participants.

Lawyers are often involved in business projects where they have to look for colleagues not only in another city, but also in another country, which they often have no familiarity with. It is not seldom required that a foreign lawyer join the legal team in the resolution of disputes of clients who have personal and business interests abroad.

Hence, comprehensive information about lawyers practising in different jurisdictions presented in this Directory will help you make a pondered choice quickly: instead of losing precious time to research, you will be able to dedicate it to finding a solution to the dispute of your client.

Regardless of the current state of international relations, it is important to understand that business development follows its own path. We have to admit that professional network horizons will always look in the same direction. The business world does not cease to grow and follow the globalization trend. This is why it is important for us lawyers to be prepared for these changing global scenario mechanisms.

Genri REZNIK,
Premier Vice-Président de la Chambre
des avocats de Moscou

Cette revue est en réalité un moyen de communication innovant, une partie de tout un système de mise en réseau des avocats. Ce système implique le développement des relations entre les avocats russes et étrangers sur plusieurs plateformes, ainsi que la diffusion de l'information aux participants.

Les juristes participent souvent aux projets d'affaires dans lesquels ils doivent chercher des collègues non seulement dans une autre ville, mais aussi dans un autre pays qui leur est parfois complètement inconnu. La participation d'un avocat étranger est aussi souvent nécessaire dans la résolution des litiges des clients qui ont des intérêts personnels et professionnels à l'étranger.

L'information complète sur les avocats des différents pays qui figure dans la présente revue vous permettra de faire le bon choix rapidement, sans perdre de temps précieux pour les recherches et de l'utiliser pour trouver une solution au litige de votre client. Indépendamment de l'état actuel des relations internationales, il est important de comprendre que le développement des affaires suit sa propre trajectoire. Il faut ainsi se dire que l'élargissement du réseau professionnel s'orientera toujours dans la même direction. Le monde des affaires ne cesse de se développer en suivant le mouvement de la mondialisation. C'est pourquoi, il est important pour nous, juristes, de nous préparer à ce scénario d'évolution des mécanismes mondiaux.

Genri REZNIK,
Primo Vice-Presidente dell'Ordine degli
Avvocati di Mosca

Questa rassegna è un risultato davvero innovativo, una piccola parte di un grande sistema che prevede la creazione di una rete di contatti tra gli avvocati. Questo sistema implica lo sviluppo di nuove relazioni tra avvocati russi e stranieri tramite diverse piattaforme, nonché la diffusione delle informazioni e dei dati di contatto dei partecipanti.

I giuristi partecipano spesso a progetti lavorativi nei quali è richiesto il sostegno di un collega non solo in un'altra città, ma addirittura in un altro paese a volte completamente a loro sconosciuto. L'intervento di un avvocato straniero è spesso indispensabile per la risoluzione delle controversie di clienti che possiedono interessi personali e professionali all'estero.

Le informazioni complete riguardanti gli avvocati di diversi paesi e presenti nella suddetta rassegna Vi consentiranno di prendere la decisione migliore e in tempi celeri, senza quindi perdere tempo prezioso nelle ricerche, per trovare una soluzione alla controversia del Vostro cliente.

Indipendentemente dallo stato attuale delle relazioni internazionali, è essenziale comprendere che lo sviluppo degli affari segue un tragitto ben delineato. È dunque fondamentale specificare che l'allargamento delle risorse professionali si orienterà in modo costante, seguendo sempre la stessa direzione. Il mondo degli affari non cessa di ampliarsi, come conseguenza della globalizzazione.

Questa è la ragione per cui è importante per noi giuristi essere pronti a un tale scenario di evoluzione dei meccanismi mondiali.

Genri REZNIK,
Vicepresidente Primero de la Cámara de
Abogados de Moscú

Esta revista es, en realidad, un producto innovador que representa solo una pequeña parte de un complejo sistema diseñado para poner a los abogados en contacto. Este sistema favorece el desarrollo de las relaciones entre los abogados rusos y sus homólogos extranjeros a través de diversas plataformas, así como la difusión de la información sobre los participantes.

Los juristas participan frecuentemente en proyectos empresariales en los que deben reunirse con sus homólogos no solo en otras ciudades, sino también en otros países que les son completamente ajenos. La participación de un abogado extranjero también resulta a menudo necesaria a la hora de resolver litigios de clientes que tienen intereses personales y profesionales en un país extranjero.

Esta revista les proporcionará información detallada sobre abogados y juristas de diversos países, lo que le permitirá realizar una buena elección de manera rápida, evitando así las demoras en la búsqueda, y emplear estos contactos para encontrar una solución a los litigios de sus clientes.

Independientemente del estado actual de las relaciones internacionales, resulta importante comprender que la evolución de los negocios sigue su propia trayectoria. Así, es evidente que la necesidad de ampliar la red de contactos profesionales va de la mano con esta evolución. El mundo de los negocios no deja de crecer, siguiendo el ritmo creciente de la globalización. Por esta razón, es importante para nosotros, los juristas, que estemos preparados para afrontar este posible panorama de evolución de los mecanismos mundiales.

Genri REZNIK,
Erster Vize-Präsident der
Rechtsanwaltskammer Moskau

Diese Revue ist wirklich ein innovatives Produkt, es ist der Teil eines Systems, das Rechtsanwälte in ein Netzsystem integriert. Dieses System ermöglicht die Entwicklung von Partnerschaften zwischen russischen und ausländischen Rechtsanwälten über verschiedene Plattformen und die Verbreitung von Informationen über die Teilnehmer.

Die Juristen nehmen oft an Geschäftsprojekten teil, in denen sie Kollegen nicht nur in anderen Städten, sondern auch in anderen Ländern suchen müssen, die ihnen aber manchmal völlig unbekannt sind. Die Teilnahme eines ausländischen Rechtsanwaltes ist auch oft notwendig, um den Rechtsstreit ihrer Mandanten, die persönliche oder berufliche Interessen im Ausland haben, erfolgreich zu Ende zu führen.

Die vollständigen Informationen über die Rechtsanwälte der verschiedenen Länder sind in der vorliegenden Revue aufgeführt und sie erlauben Ihnen, schnell die beste Entscheidung zu treffen, ohne wertvolle Zeit bei der Suche zu verlieren und diese Zeit zur Schlichtung des Rechtsstreits Ihres Mandanten zu nutzen. Unabhängig vom aktuellen Stand der internationalen Beziehungen, ist es wichtig zu verstehen, daß die Entwicklung der Geschäfte ihrem eigenen Weg folgt. Man muß sich deshalb sagen, daß die Erweiterung des beruflichen Netzwerkes sich immer in die gleiche Richtung orientiert. Die Geschäftswelt verbreitet sich ständig und schließt sich damit der Bewegung der Weltwirtschaft an. Deshalb ist es für uns Juristen wichtig, uns auf dieses Entwicklungsszenario der globalen Getriebe vorzubereiten.

THE PROFESSION OF LAWYERS IN RUSSIA

A lawyer is an independent professional advisor on legal questions. Such is the definition given by the federal law n°63-FZ “relative to the activity and profession of lawyers in the Russian Federation” of 31st May 2002.

It is important to understand the difference between the more general notion of “legal advisor” and the specific one of “lawyer”.

A legal advisor is someone who has a law diploma from secondary school or university.

Lawyers, however, dispose of a number of safeguards and legal powers defined by federal legislation and must be registered in a lawyers’ chamber. A lawyer can, for example, collect information, ask for documents from municipal or state organizations, and receive objects which could form material proof. A lawyer is sworn to professional confidentiality, which can be guaranteed, primarily, through the fact that the lawyer is independent. It is, therefore, impossible to ask a lawyer—or even a collaborator or employee of a lawyers’ association—for information connected to legal help in specific cases. These rules either do not apply to legal advisors who work in legal companies or firms, or their enforcement is limited.

Unlike a legal advisor, a lawyer cannot have affinities in work relationships, like an employee. Neither can a lawyer become a civil servant. On the other hand, lawyers can teach, and lead scientific or creative projects. The chamber of lawyers (Association of lawyers) is not a state organization; it is non-profit-making and based on the compulsory participation of lawyers, for the purpose of making legal aid available for all the population of each subject of the federation, as well as for representing and defending lawyers’ interests before public

What is a chamber of lawyers? What other lawyer associations are there?

Authorities and the civil society, and for making sure that lawyers respect the profession’s code of conduct. For their part, all the regional chambers make up the federal Chamber of lawyers, based on compulsory participation. All decisions made within the federal Chamber of lawyers’ competence are obligatory for all the chambers of lawyers and for all lawyers.

A law office is where a lawyer’s activity is carried out individually. The premises can be in the lawyer’s own house or in one belonging to members of his or her family.

A lawyers’ council (association of lawyers) concerns the activity of two or more lawyers. The council is a non-profit organization which is run on the basis of the founding convention and statutes. It must be registered with public authorities. A council may create divisions over the entire Russian territory, as well as on a foreign State if the legislation of this State has provided for it.

A lawyers’ practice is created by two or more lawyers with a partnership contract in ordinary written form. The contract is confidential and not registered with authorities.

A legal advisory service is a non-profit organization created in the form of a public institution based on a decision made by the subject of the federation’s executive power.

In the Russian Federation, the status of lawyer is obtained with a higher education diploma in law and at least two years’ professional experience in law, along with a qualifying examination and having taken the lawyer’s oath.

Access to the profession: Obtaining the status of lawyer.

After obtaining the status, a lawyer can practice over the entire Russian territory without special authorization. All lawyers entitled to practice in Russia have their names down in a register managed by the regional services of justice. The Russian Federation’s register of lawyers is available free-of-charge on the information portal of the Russian Federation’s Ministry of Justice (layers.minjust.ru/lawyers-portal/Lawyers). Each registered lawyer also receives a professional card complete with a photo, and indicating his or her family name, first name, birth name and register enrollment number.

The current number of lawyers in relation to the country’s population is around 0.05%. Pursuant to the Russian Federation’s Ministerial order n° 312 of 15th April 2014, this figure is expected to double by 2020. The order also foresees the creation of a unique lawyer status for all persons who provide legal advisory services. At present, it is possible to provide legal services on Russian territory after some necessary training, but without actual lawyer status.

Lawyers from a foreign State can provide legal assistance on the Russian Federation’s territory, for questions concerning the law of the foreign State. These lawyers are under obligation to be in a special register managed by justice services. The Russian Federation President’s order n° 172 of 4th April 2015 grants the Ministry of Justice to determine the format of the registration certificate relative to the register of foreign lawyers.

Can foreign lawyers practice on Russian territory? The answer is yes.

DE LA PROFESSION D'AVOCAT EN RUSSIE

Un avocat est un conseiller professionnel indépendant sur les questions juridiques. Telle est la définition donnée par la loi fédérale n°63-FZ du 31 mai 2002 « relative à l'activité et à la profession d'avocat en Fédération de Russie ».

Il est important de comprendre la différence entre la notion plus générale de « juriste » et celle, spéciale, d'« avocat ».

Un juriste est une personne ayant un diplôme d'enseignement secondaire ou universitaire en droit.

Un avocat dispose, quant à lui, d'un certain nombre de garanties et de pouvoirs prévus par la législation fédérale et doit être inscrit auprès d'une chambre des avocats. Par exemple, un avocat peut recueillir des renseignements, demander des documents auprès des organismes étatiques et municipaux, recueillir des objets qui peuvent constituer des preuves matérielles, etc. Un avocat est tenu de respecter le secret professionnel, ce qui peut être garanti, entre autres, par l'indépendance de l'avocat. Ainsi, il est impossible de demander à un avocat, ou à un collaborateur ou employé d'une société d'avocats, des informations liées à l'assistance juridique dans des affaires concrètes. Ces règles ne sont pas applicables aux juristes qui travaillent au sein des sociétés ou entreprises juridiques, ou alors leur application est limitée.

Contrairement à un juriste, un avocat ne peut être lié par des relations de travail en tant qu'employé. Il ne peut pas non plus être fonctionnaire. En revanche, un avocat peut enseigner, mener une activité scientifique ou créative.

Qu'est-ce qu'une chambre des avocats ? Quelles sont les autres formes d'association d'avocats ?

La chambre des avocats (ordre des avocats) est une organisation non-étatique à but non lucratif. Elle est fondée sur la participation obligatoire des avocats à propos d'un sujet de la fédération, aux fins d'assurer la disponibilité d'une aide juridique qualifiée pour toute la population sur ce sujet, ainsi que de représenter et défendre les intérêts des avocats devant les autorités publiques et la société civile, et de contrôler le respect par les avocats de la déontologie professionnelle. Une seule chambre peut exister au niveau d'un sujet de la fédération. De leur côté, toutes les chambres régionales font partie de la Chambre fédérale des avocats, sur la base de la participation obligatoire. Les décisions de la Chambre fédérale des avocats, prises dans les limites de sa compétence, sont obligatoires pour toutes les chambres des avocats et pour les avocats.

Le cabinet d'avocat est une forme d'activité d'un seul avocat, exercée individuellement. L'avocat peut utiliser, pour son cabinet, les locaux d'habitation lui appartenant ou bien appartenant aux membres de sa famille.

Le collège d'avocats (association d'avocats) est une forme d'activité d'avocats exercée par deux ou plusieurs avocats. Le collège est une organisation à but non lucratif qui fonctionne sur la base des statuts et de la convention fondatrice. Il doit être enregistré auprès des autorités publiques. Un collège peut créer des filiales sur tout le territoire de Russie, ainsi que sur le territoire d'un Etat étranger, si la législation de cet Etat le prévoit.

Le bureau d'avocats est créé par deux ou plusieurs avocats sur la base d'un contrat de partenariat sous forme écrite simple. Le contrat est confidentiel et ne doit pas être enregistré auprès des autorités.

Le service de consultation juridique est une organisation à but non lucratif créée sous forme d'un établissement sur la base d'une décision du pouvoir exécutif du sujet de la fédération.

Accès à la profession : Obtention du statut d'avocat.

Afin d'obtenir le statut d'avocat en Fédération de Russie, il faut avoir un diplôme d'enseignement supérieur en droit et une expérience professionnelle de deux ans au moins à un poste juridique, réussir un examen de qualification et prêter serment. Après l'obtention du statut d'avocat, il est possible d'exercer sur tout le territoire de Russie sans autorisation spéciale. Tous les avocats habilités à exercer en Russie sont inscrits au registre géré par les services régionaux de la justice. Le registre des avocats de la Fédération de Russie est disponible gratuitement sur le portail d'information du Ministère de la Justice de la Fédération de Russie (layers.minjust.ru/lawyers-portal/Lawyers). Chaque avocat inscrit au registre reçoit également sa carte professionnelle indiquant son nom, prénom, patronyme, numéro d'inscription au registre et sa photo.

Actuellement, le rapport du nombre des avocats par rapport à la population du pays est d'environ 0,05%. En vertu de l'arrêté du Gouvernement de la Fédération de Russie n° 312 du 15 avril 2014, il est prévu le doublement de ce chiffre d'ici 2020. L'arrêté prévoit également la création d'un statut unique d'avocat pour toutes les personnes qui fournissent les services de conseil juridique. Aujourd'hui, les personnes ayant une formation nécessaire peuvent fournir des services juridiques sur le territoire de Russie sans avoir le statut d'avocat.

Les avocats étrangers peuvent-ils exercer sur le territoire de la Russie ? La réponse est oui.

Les avocats d'un Etat étranger peuvent fournir une assistance juridique sur le territoire de la Fédération de Russie sur les questions relatives au droit de l'Etat étranger. Ces avocats doivent obligatoirement être inscrits dans un registre spécial géré par les services de la Justice. L'ordonnance du Président de la Fédération de Russie n° 172 du 4 avril 2015 donne compétence au Ministère de la Justice pour déterminer le format du certificat d'inscription au registre des avocats étrangers.

Un avocat ne peut pas être inscrit en même temps qu'à la chambre des avocats d'un seul sujet de la fédération. Mais il peut changer d'inscription en informant la chambre concernée et le service de la Justice.

LA PROFESSIONE DI AVVOCATO IN RUSSIA

Un avvocato è un consulente professionale indipendente per le questioni giuridiche. Tale è la definizione data dalla legge federale n°63-FZ « relativa all'attività e alla professione di avvocato nella Federazione russa » del 31 maggio 2002.

È importante capire la differenza tra il concetto più generico di « giurista » e quello, specifico, di « avvocato ».

Un giurista è colui che dispone di un diploma di istruzione superiore o di laurea in diritto.

Un avvocato dispone, quanto a lui, di un certo numero di garanzie e di poteri previsti dalla legislazione federale e deve essere iscritto a una camera degli avvocati. Per esempio, un avvocato può raccogliere informazioni, chiedere documenti presso gli organismi statali o municipali, raccogliere oggetti che possano costituire delle prove materiali etc. Un avvocato è tenuto a rispettare il segreto professionale, e ciò può essere garantito, tra l'altro, dall'indipendenza dell'avvocato. Di conseguenza, è impossibile chiedere a un avvocato, o a un collaboratore o impiegato presso una società di avvocati, informazioni legate all'assistenza giuridica all'interno di una pratica concreta. Queste regole non sono applicabili, o solo in modo limitato, nei confronti dei giuristi che lavorano in seno a società o imprese giuridiche.

Contrariamente a un giurista, un avvocato non può essere legato a rapporti di lavoro subordinato, né può essere un funzionario. In compenso, un avvocato può insegnare, condurre un'attività scientifica o creativa.

Che cos'è una camera degli avvocati? Quali sono le altre forme associative per gli avvocati?

La camera degli avvocati (ordine degli avvocati) è un'organizzazione non statale e non a scopo di lucro, fondata sulla partecipazione obbligatoria degli avvocati, al fine di assicurare la disponibilità di un aiuto giuridico qualificato per tutta la popolazione del suddetto soggetto federale, nonché al fine di rappresentare e difendere gli interessi degli avvocati dinanzi alle autorità pubbliche e alla società civile, e di controllare il rispetto da parte degli avvocati della deontologia professionale. In un soggetto federale può esistere una sola camera. Dal canto loro, tutte le camere regionali fanno parte della Camera federale degli avvocati, sulla base della partecipazione obbligatoria. Le decisioni della Camera federale degli avvocati, prese nei limiti di competenza di quest'ultima, sono obbligatorie per tutte le camere degli avvocati.

Il gabinetto di avvocato è una forma di attività di un avvocato, esercitata individualmente. L'avvocato può utilizzare, per il suo gabinetto, i locali abitativi appartenenti a lui stesso o a membri della sua famiglia.

Il collegio di avvocati (associazione di avvocati) è una forma di attività degli avvocati esercitata da due o più avvocati. Esso è un'organizzazione non a scopo di lucro che funziona sulla base degli atti costitutivi e della convenzione istitutiva. Deve essere registrato presso le autorità pubbliche e può istituire delle filiali su tutto il territorio russo, ma anche sul territorio di uno Stato straniero se la legislazione del suddetto Stato lo prevede.

Lo studio legale è creato da due o più avvocati sulla base di un contratto di partnership in forma scritta semplice. Il contratto è confidenziale e non deve essere registrato presso le autorità.

Il servizio di consulenza giuridica è un'organizzazione non a scopo di lucro creata sotto forma di istituto sulla base di una decisione del potere esecutivo del soggetto federale.

Accesso alla professione: Ottenimento dello statuto di avvocato.

Al fine di ottenere lo statuto di avvocato nella Federazione russa, è necessario avere un diploma di istruzione superiore in diritto, un'esperienza professionale giuridica di almeno due anni, superare un esame di qualifica e prestare giuramento. In seguito all'ottenimento dello statuto di avvocato, è possibile esercitare la professione su tutto il territorio russo senza speciale autorizzazione. Tutti gli avvocati abilitati a esercitare in Russia sono iscritti a un albo gestito dai servizi regionali della giustizia. L'albo degli avvocati della Federazione russa è disponibile gratuitamente sul portale del Ministero della Giustizia della Federazione e russa (layers.minjust.ru/lawyers-portal/Lawyers). Ciascun avvocato iscritto all'albo ottiene anche il personale certificato professionale, indicante il suo cognome, nome, patronimico, numero di iscrizione all'albo e foto. Attualmente, il rapporto tra il numero degli avvocati e la popolazione è pari allo 0,05%. In virtù del decreto del Governo della Federazione russa n° 312 del 15 aprile 2014, si prevede di raddoppiare tale cifra entro il 2020. L'ordinanza prevede anche la creazione di uno statuto unico di avvocato per tutte le persone che forniscono servizi di consiglio giuridico. Oggigiorno, coloro che hanno una formazione adeguata possono fornire servizi giuridici sul territorio della Russia senza avere lo statuto di avvocato.

Gli avvocati stranieri possono esercitare la loro professione sul territorio russo? La risposta è sì.

Gli avvocati di uno Stato straniero possono fornire assistenza giuridica sul territorio russo per questioni riguardanti il diritto dello Stato straniero. Tali avvocati devono essere obbligatoriamente iscritti in un registro speciale gestito dal Ministero della Giustizia. L'ordinanza del Presidente della Federazione russa n° 172 del 4 aprile 2015 attribuisce al Ministero della Giustizia la competenza di determinare il formato del certificato di iscrizione al registro degli avvocati stranieri.

SOBRE LA PROFESIÓN DEL ABOGADO EN RUSIA

Un abogado es un consejero profesional independiente sobre cuestiones jurídicas. Esta es la definición prevista por la ley federal n°63-FZ «sobre la abogacía y la profesión de abogado en la Federación Rusa» de 31 de mayo de 2002.

Resulta importante entender la diferencia entre el concepto de «jurista», de carácter general, y el concepto de «abogado», de sentido específico.

Un jurista es una persona que posee un título universitario en Derecho.

Un abogado, por el contrario, tiene una serie de garantías y de poderes según lo previsto en la legislación. Además, un abogado debe estar inscrito en un Colegio de Abogados. Por ejemplo, un abogado puede recabar información, solicitar documentos en organismos estatales y municipales, recabar objetos que puedan constituir pruebas materiales, etc. Un abogado debe respetar en todo momento el secreto profesional, el cual está garantizado, entre otros factores, por la condición independiente del abogado. Así, gracias al secreto profesional, un abogado o un colaborador de una empresa de abogacía no puede desvelar la información relativa a la asistencia jurídica prestada en un caso en particular. Estas reglas, no obstante, no se aplican (o se aplican de forma limitada) a los juristas que trabajan en empresas o sociedades.

Un abogado no puede mantener relaciones laborales en calidad de empleado, lo cual no sucede con los juristas, así como tampoco puede ser funcionario. No obstante, un abogado puede dedicarse a la enseñanza, o bien a desarrollar una actividad científica o creativa.

¿Qué es una cámara de abogados? ¿Cuáles son las formas de asociación de los abogados?

Una cámara de abogados (orden de abogados) es una organización no estatal sin ánimo de lucro. Las cámaras se fundan con la participación obligatoria de los abogados, y tienen como fin garantizar la asistencia jurídica cualificada para la población de cada sujeto federal. Asimismo, las cámaras de abogados son organismos cuyo fin es la representación y la defensa de los intereses de los abogados ante las autoridades públicas y la sociedad civil, velando al mismo tiempo por el respeto a las normas deontológicas de la abogacía. Solo existe una cámara de abogados para cada "sujeto" o territorio de la Federación Rusa. Por otra parte, todas las cámaras regionales forman parte de la Cámara Federal de Abogados, en base a una participación de carácter obligatorio. Aquellas decisiones que sean competencia de la Cámara Federal deben ser adoptadas obligatoriamente por el resto de Cámaras de Abogados, así como por los abogados que las componen.

Un despacho de abogados es una forma de ejercer la abogacía de manera individual. Un abogado puede utilizar un espacio dentro de su propio lugar de residencia, o el de un familiar, para ejercer su actividad profesional.

Un colegio de abogados (asociación de abogados) es una forma de ejercer la abogacía por dos o más abogados. El colegio es una asociación sin ánimo de lucro que funciona en base a unos estatutos y a un convenio fundador, y que debe estar registrado ante las autoridades públicas. Un colegio puede establecer filiales en todo el territorio de Rusia, así como en países extranjeros si así lo prevé la legislación de cada país.

Un bufete de abogados está formado por dos o más abogados en base a un contrato de asociación celebrado por escrito. Este contrato tiene carácter confidencial y no debe ser registrado ante las autoridades.

Un servicio de consultoría jurídica es una organización sin ánimo de lucro que toma la forma de una institución fundada en base a una decisión del poder ejecutivo de un "sujeto" o territorio federal.

El acceso a la abogacía: cómo obtener el nombramiento de abogado.

Para obtener la condición de abogado en la Federación Rusa es necesario disponer de una titulación superior en Derecho y de una experiencia profesional de más de dos años en un puesto de tipo jurídico. Además, es necesario superar un examen de cualificación y prestar juramento. Tras obtener la condición de abogado, se puede ejercer en todo el territorio de Rusia sin obtener una autorización especial. Todos los abogados habilitados para ejercer en Rusia están inscritos en el registro de los servicios regionales de justicia. El registro de abogados de la Federación Rusa se puede consultar gratuitamente en el portal de información del Ministerio de Justicia de la Federación Rusa (layers.minjust.ru/lawyers-portal/Lawyers). Cada abogado inscrito en este registro dispone también de un carnet profesional en el que se indica: nombre, apellidos, patronímico, número de inscripción en el registro y fotografía.

Actualmente, la proporción de abogados respecto a la población total del país es de 0,05%. En virtud del decreto del Gobierno de la Federación Rusa n° 312 de 15 de abril de 2014, se prevé doblar esta cifra de aquí a 2020. Este decreto prevé, además, la creación de un estatus único de abogado para todas las personas que presten servicios de asesoramiento jurídico. Hoy en día, las personas que hayan recibido la formación necesaria pueden prestar servicios jurídicos en el territorio de Rusia sin tener la condición de abogado.

¿Pueden ejercer en Rusia los abogados extranjeros? La respuesta es sí.

Los abogados de un Estado extranjero pueden prestar asistencia jurídica en el territorio de la Federación Rusa sobre cuestiones relativas al derecho de dicho Estado extranjero. Estos abogados deben estar inscritos obligatoriamente en un registro especial gestionado por los servicios de justicia. La ordenanza del Presidente de la Federación Rusa n° 172 de 4 de abril de 2015 otorga al Ministerio de Justicia competencias para determinar el formato del certificado de inscripción en el registro de abogados extranjeros.

Dr. Ekaterina Safonova, Director of CECJ, PhD in business management and international project management (University of Strasbourg)

Organizing the International Networking Congress for lawyers, in cooperation with the Federal Chamber of Lawyers of the Russian Federation and the Moscow City Bar, is the first step in creating a great platform to host similar events that follow this new format in various jurisdictions around the world so as to provide lawyers with a valid opportunity to find business partners and to discover new jurisdictions. Each year we choose a different destination where to share the benefits of such cooperation in the legal field. After all, it is well known that many lawyers come to conferences to expand their contact list.

Our goal: to disseminate professional contacts.

Our duty: to ensure, by all possible means, that participants can achieve the essential goal and expand their network through which they can start mutually beneficial partnerships.
